We look forward to seeing you there!

Book soon as limited places available!

The British Association
for the
Person-Centred Approach

BAPCA is pleased to invite you . . .

to our 2008 event where you will have an unique opportunity to revisit or become acquainted with the work of two of the most respected and well recognized practitioners and theorists within the Person-Centred Approach.

The weekend will start with a day to celebrate and honour Barbara Brodley's life and work. Barbara was born in the US on 4th October 1932 and died in December 2007. Throughout her professional life, she practised and developed Client-Centred Therapy, leaving significant contributions towards key concepts of theory and practice. Barbara's long-term colleagues and friends, Jerold Bozarth, Susan Pildes and Irene Fairhurst, will participate throughout the day and comment on professional and personal aspects of this distinctive woman's life.

The second day of the event presents another notable personality in the PCA community: Jerold Bozarth. Jerold has committed himself to the practical and theoretical development of Client-Centred Therapy for over 50 years. Here, he will share his views in relation to important aspects of Client-Centred Therapy and their implications in the current context of the helping professions. There will be a chance to participate in open discussion where Jerold will be available to interact with participants about his beliefs and broad experience in the Approach.

This event is aimed at everybody who embraces the philosophy of Client-Centred Therapy and the Person-Centred Approach or wishes to learn more about it. We hope you enjoy the programme and this unique opportunity to come face to face with remarkable personalities of the PCA history!

Saturday, 28 June 2008
